#### National Institute of Environmental Health Sciences; Superfund Hazardous Waste Worker Health and Safety Training Program Notice of Meeting

Notice is hereby given of a meeting to be held at the HHS North Auditorium, 330 Independence Avenue, SW., Washington, DC, on January 12, 1987. The meeting will begin at 10 a.m. and end at approximately 4 p.m. or at the conclusion of public comment if prior to 4 p.m. The meeting is open to the public.

#### Background

Congress authorized a new program of grants in Section 126 of the Superfund and Amendments and Reauthorization Act of 1986, which permits the National Institute of Environmental Health Sciences (NIEHS) to fund both classroom and field-based programs to assure that hazardous substances workers and their supervisors have been trained to meet health protection and safety standards and regulations. Such workers include those at Superfund sites, those at the scenes of environmental emergencies at hazardous waste management facilities and those engaged in transportation of hazardous wastes. Recipients of these grants are to be non-profit organizations with demonstrated ability to reach target worker populations and demonstrated experience in implementing and operating worker health and safety training and education programs. Up to \$10 million per year for fiscal years 1987-1991 has been authorized to support this grant program. These dollar amounts are budget ceilings and actual amounts will be appropriated each year consistent with the Federal budget process.

The purpose of this meeting is to describe the new worker training

program assigned to NIEHS under the new Superfund Amendments and Reauthorization Act of 1986 legislation and to receive oral and written comments and suggestions regarding this new initiative. These comments will be considered by NIEHS staff in the development of a program announcement which will solicit grant applications.

Topics to be discussed in the morning session may include but are not limited to an overview of section 126(a), Superfund Amendments and Reauthorization Act of 1986 legislation, Superfund Hazardous Waste Worker Health & Safety Training Program and possible approaches, and the NIH grants process and implementation plan. Those wishing to make oral presentations on the Worker Health & Safety Training Program will be given that opportunity following the overview. These presentations must be limited to 7 minutes. Oral presentations should be supported by written documents that can be left with NIEHS staff at the meeting.

A draft program description, which will be summarized at the meeting, is described below. Written comments are encouraged and it is requested that they be received by close of business January 9, 1987. Every effort will be made to consider comments received through January 16. In order to accommodate as many people wishing to speak as possible, persons wishing to make oral presentations should contact Ms. Riley at the address below no later than January 5, 1987.

Ms. Janet Riley, Administrative Office, OD, NIEHS, P.O. Box 12233, Research Triangle Park, NC 27709

Attendance is limited only by space available. For further information regarding the meeting, please contact Mrs. Riley at the above address or telephone 919-541-7621 or FTS 629-7621. The official Government representative for this meeting will be Dr. John Dement.
